

Concert Review

Elkhorn High School Band

Name_____

Date_____

1. Describe the concert you went to- what kind of group is it, and what sort of music did they play? What sort of venue was it in, and did that affect the sound in any way?
2. What did this ensemble do well? Was there anything that you felt could have been played better? Please use musical descriptions in your response, and make sure to think about concepts such as sound quality, intonation, balance, expressiveness, etc.
3. Choose one song or piece from the concert that most stood out to you, and tell me what you most liked or disliked about that song. What aspect of the performance or intrinsic construction of that piece made it communicate with you in either a positive or negative way? Again, please use musical language and terms in your response.

Please attach the concert program to this sheet if there was one!
